Vocational Training System in India

Vocational Training is a concurrent subject under the Constitution. The Central and State Governments share responsibility for effective implementation of vocational training system in the country. At the national level, the **Directorate General of Employment and Training (DGE&T), Ministry of Labour & Employment (MoLE)**, is the nodal body for formulating policies, laying down norms, standards, conducting trade test and certification of vocational training under the aegis of training advisory body **National Council of Vocational Training (NCVT)**. The vocational training system under the Ministry of Labour and Employment is one of the most comprehensive systems in the country.

Accordingly, Ministry of Labour & Employment undertook development of a new strategic framework for skill development for early school leavers and existing workers, especially in the un-organised sector in close consultation with industry, micro enterprises in the un-organised sector, State Governments, experts and academia which was essential considering their educational, social and economic background. The main objective of the scheme is to provide employable skills to school leavers, existing workers, ITI graduates, etc. Existing skills of the persons can also be tested and certified under this scheme. Priority will be given to covering those above the age of 14 years who have been or withdrawn as child labour to enable them to learn employable skills in order to get gainful employment. It is hoped that this website will help in dissemination of the information about the scheme and bring transparency. It will also be helpful in getting valuable feedback from stakeholders and public at large.

All courses are approved by National Council for vocational training (NCVT). Certificate awarded under this scheme are recognized for subordinates post at India and abroad.

What Is MES?

MES -Modular Employable Skills defines the minimum skill set in a chosen trade or profession which is sufficient to get an employment in job market.

About Certificate:

Successful apprentices are awarded National Apprenticeship Certificate, which is a recognized qualification for recruitment to the shop floor level subordinate technical posts within the country as well as abroad.
